	strongly disagree	disagree	mildly disagree	neutral	mildly agree	agree	strongly agree
The workshop I attended was useful	0%	0%	0%	0%	0%	50%	50%
The workshop I attended met my expectation	0%	0%	0%	0%	0%	50%	50%
Satisfied with the presentation	0%	0%	0%	0%	0%	50%	50%
Complexity of material at the right level	0%	0%	0%	0%	20%	50%	30%
Offered opportunities to tackle issues relevant to my own research	0%	0%	0%	10%	20%	50%	20%
Rooms and facilities were adequate	0%	0%	10%	10%	30%	30%	20%
Registration procedures worked well	0%	0%	10%	0%	10%	30%	50%

A total of 10 feedback sheets were returned (100%= 10).

Best aspect

Good pace, good volume. Good slides, good structure. Answered questions well and was open to questions. Completely new tool/methodology and learning the value of its application. Good introduction to network analysis, get hands-on experience on the program used to conduct NA. Intro to Network Analysis. Overview plus practical experience. Combination of theory/explanation and hands on activity – time to ask questions. Good material. Good presentation. Relevant and focussed.

Worst aspects

Room for morning session (without using PC) not suitable! Good for afternoon though. Enthusiasm of presenter. Locked door - could not be left open. Room. Lack of handouts.

Other comments

Define 'isolates' & 'pendants' & 'actors' on your slides. Copy of slides would have been useful to hand out. Thank you. Great presentation. Thank you! Very well organised presentation! Thank you! Excellent presentation's content. I thought the presentation was comprehensive, well thought out, logical and well presented by a knowledgeable presenter. Thanks!
